SEXUAL AND REPRODUCTIVE HEALTH AND RIGHTS INFOGRAPHIC SNAPSHOT ETHIOPIA 2021^{1*}

This country snapshot provides an overview of national data relating to sexual and reproductive health and rights (SRHR) throughout the life course. Realization of SRHR² requires provision of comprehensive, people-centred services, that address the different elements of SRHR, and which are supported by an enabling environment, quality health systems, and meaningful community engagement. Multiple, synergistic cross-linkages exist within and between the different SRHR elements, leading to sequential outcome benefits throughout the life course.³

By highlighting the national SRHR situation - including successes, areas for improvement, and data gaps - this snapshot can be used for determining priorities, planning of programmes, resource mobilization, and strengthening of health systems, service delivery and community engagement.

This snapshot uses the latest data publically available at the publication date¹, from reputable international sources (see endnotes for the year and source of each data point). It is acknowledged that intersectionality and people-centredness are not well reflected in available data, and that many categories of information currently collected are gender-binary.

CONTEXT

The Sustainable Development Goals (SDGs) and Universal Health Coverage (UHC) agendas provide important opportunities to realise sexual and reproductive health and rights for all, including key and vulnerable populations, and to reimagine and enhance equitable access and quality coverage of SRH services. Delivery of comprehensive SRHR interventions throughout the life course is an essential component of UHC.

Global Targets:

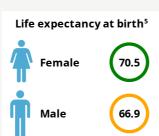

Achieved

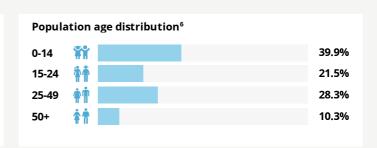

Challenges remain O

Major challenges remain O

Demographic data

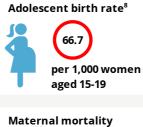

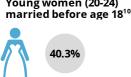

Sexual and Reproductive Health

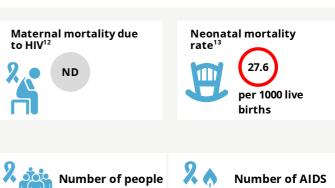

L	JI	1
Г	Ш	V

	Number of new HIV infections ¹⁴	Number of people living with HIV ¹⁵	Number of AIDS related deaths ¹⁶
Child (0-14)	3,200	44,000	2,100
Female (15-24)	3,400	44,000	<1,000
Male (15-24)	1,100	28,000	<1,000
Female (25-49)	3,500	250,000	3,700
Male (25-49)	2,900	130,000	2,100
Female (50+)	<500	94,000	1,200
Male (50+)	<500	74,000	1,100
Total	15,000	670,000	12,000

HIV incidence per 1,000 population (15+)¹⁷

0.9%

ENABLING ENVIRONMENT

Supportive laws and policies, and access to justice are essential to eliminate stigma, discrimination, violence, coercion and exclusion in health care. Such laws and policies create a safe and supportive enabling environment that meets the SRHR needs of all people, especially key and vulnerable populations. Harmful laws need to be amended, and damaging practices need to be countered at all levels.

Global Targets:

Achieved

Challenges remain O

Major challenges remain 🔘

Laws and policies

Impact on integrated SRHR: Supportive Partial Punitive

People	living	with	HIV
Are there	e laws o	r polic	ies that:

Are there laws or policies that.	
Criminalize transmission, exposure or non- disclosure of HIV ¹⁹	Yes 🛑
Restrict entry, stay and residence of people living with HIV ²⁰	No 🔵
Protect against discrimination on basis of HIV status ²¹	Yes
Allow HIV self-testing ²²	Yes
Make oral pre-exposure prophylaxis for HIV (PrEP) available ²³	No 🛑

Key populations

Criminalize same-sex sexual behaviour ²⁴	Yes
Criminalize sex work ²⁵	No (
Allow the death penalty for people convicted of drug-related offences ²⁶	No
Support a harm reducation approach for people who use drugs ²⁷	Yes
Legally recognize a third gender ²⁸	ND

SRHR and gender-based violence Are there laws or policies that:

Allow safe abortion ²⁹		
- To save a woman's life	Yes	
- To preserve a woman's physical health	No	
- To preserve a woman's mental health	No	
- In case of rape	Yes	
- In case of incest	Yes	
- Owing to foetal impairment	Yes	
- For economic or social reasons	No	
- On request	No	
Require spousal consent for married women to access SRH services ³⁰	No	•
Explicitly criminalize marital rape ³¹	No	
Criminalize domestic violence ³²	Yes	
Criminalize sexual harassment ³³	ND	
Require provision of CSE in primary school ³⁴	No	
National strategy or policy on self-care interventions ³⁵	ND	

Extent to which laws and regulations guarantee access to SRH care and education (SDG 5.6.2)³⁶

Age of Consent

Legal age for consent to sexual intercourse³⁷

Legal age for marriage without parental consent³⁸

Laws requiring parental consent for adolescents to access SRH services39

Yes <18yrs

Women's empowerment

Percentage of women (15-49) Percentage of women that believe they should have final making SRHR decisions⁴¹ say in decisions regarding their own healthcare⁴⁰

Global Gender Gap Index⁴² Ranking (out of 156 countries) Score (1.0 = parity)

Stigma

Percentage of general population reporting discriminatory attitudes towards people living with HIV⁴³

ND

HEALTH SYSTEMS

Universal health coverage (UHC) is central to achieving better health and well-being for all people throughout the life course. Reaching UHC requires transforming health systems away from vertical and top-down approaches towards integrated, people-centred, supportive systems for health. Comprehensive SRHR, within UHC, is crucial to support progress towards advancing health and wellbeing for all.

Global Targets:

Achieved

Challenges remain O

Major challenges remain O

Universal Health Coverage

Coverage of essential health services (SDG 3.8.1)44

Catastrophic health spending (SDG 3.8.2) Households where expenditure on health is greater than:

10% of income45

25% of income46

Governance

Legislation on universal health coverage4

Health workforce

Skilled health professionals (per 10,000 population)

39

Doctors48a

Nurses and Midwives^{48b}

Pharmacists^{48c}

Supply Chain

Availability of essential medicines and commodities in Public Health facilities49

Male condom stock-out in the past 12 months⁵⁰

Health information

Paper-based or electronic health information system51

Antenatal care data captured in health information system⁵²

Health financing

Total health expenditure as a percentage of GDP53

Government health expenditure as percentage of GDP54

Total health expenditure per capita (USD)55

Government expenditure on reproductive health per capita (USD)⁵⁶

Integrated service delivery

Health facilities delivering HIV counselling and testing with SRH services⁵⁷

Health facilities delivering HIV treatment and care with SRH services⁵⁸

SERVICE DELIVERY: REPRODUCTIVE HEALTH

Women have the right to decide whether, when and how many children they want to have, and to do so safely, without fear of acquiring STIs including HIV, or of maternal morbidity and mortality. Women require access to a choice of modern contraceptive methods and quality antenatal, childbirth and postnatal care, safe abortion care (to the full extent of the law), post abortion care and infertility services.

ND = No Data

Global Targets:

Achieved

Challenges remain O

Major challenges remain O

Contraception / Family Planning

Demand for family planning satisfied with a modern method of contraception (15-49)⁵⁹

Knowledge of modern contraceptive methods60

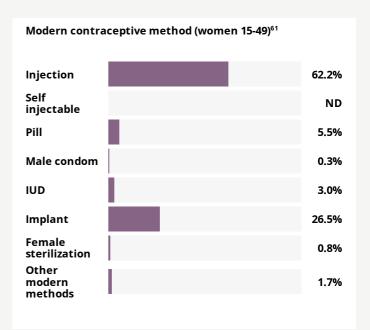

Unmet need for family planning (15-49)62

Use of modern contraceptive methods (women 15-49)63

Antenatal, delivery and postnatal care

Attending antenatal clinic

At least

At least 4 times⁶⁵

Proportion of births attended by skilled health personnel66

Births by caesarean section

Postnatal checkup in first two days after

Vertical transmission of HIV

Pregnant women tested for HIV

Early infant diagnosis (HIV-testing of infants at risk)70

Vertical transmission (at 12 months)7

Primary infertility among women

Vertical transmission of syphilis

Tested for syphilis at 1st antenatal care visit73

Percentage testing positive for syphilis who are treated⁷⁴

Congenital syphilis rate⁷⁵ (per 100,000 live births)

ND

Abortion

Abortions per 1,000 women (15-49)⁷⁶

SERVICE DELIVERY: SEXUAL HEALTH

Sexual health is a state of physical, emotional, mental and social well-being in relation to sexuality. It requires a positive and respectful approach to sexuality and sexual relationships, as well as the possibility of having pleasurable and safe sexual experiences, free of coercion, stigma, discrimination and violence.

ND = No Data

Global Targets:

Achieved

Challenges remain O

Major challenges remain O

HIV prevention

Condom use at last high risk sex (15-49)77

Male circumcision⁷⁸

95-95-95 testing and treatment cascade

People living with HIV who know their status

People living with HIV who know their status who are on ART (15+)80

People living with HIV on ART who achieve viral load suppression (15+)81

Male

PrEP and HIV self-testing

Current oral preexposure prophylaxis for HIV (PrEP) users⁸²

ND

HIV self tests conducted83

ND

Syphilis

Active syphilis among men who have sex with men⁸⁴

ND

Active syphilis among sex workers

ND

Gender based violence

Women experiencing physical or sexual violence in past 12 months (15-49)86

19.8%

Wife agrees husband justified beating her - at least one reason specified⁸⁷

63%

Care/support provided by service delivery points in cases of rape or incest

First-line support (psychological first aid)88

Yes

Emergency contraception for women (within 5 days)

Yes

Safe abortion (in accordance with national laws)90

Yes

Post-exposure prophylaxis for STIs and HIV (within 72 hours)91

Yes

Cervical cancer

Existence of national HPV vaccination programme⁵

Existence of national cervical cancer screening programme⁹

Type of programme94

Coverage of national screening programme95

SERVICE DELIVERY: SEXUAL AND REPRODUCTIVE HEALTH FOR ALL

Everyone has the right to access sexual and reproductive health services and information, free of force or coercion, and irrespective of age, sex, sexual orientation, gender identity, ability, socio-economic or occupational status.

ND = *No Data*

Global Targets:

Achieved

Challenges remain O

Major challenges remain O

Harmful practices

Girls married before 1896

40.3%

Female genital mutilation / cutting⁹⁷

65.2%

Comprehensive Sexuality Education

Primary schools fully implementing national CSE policy98

Secondary schools fully implementing national CSE policy99

Adolescent sexual health

Had multiple partners and used a condom at last sex (15-
